

SOYLUSSO

DETAILS THAT MAKE A HOME

HISTORY

SOYLUSSO was born from a trip that its founder Stella made to the United States for business in October 2019, where she visited the "Miami Furniture and Home Products Fair", an event that inspired her to create a brand of kitchen furniture and cabinets, to bring a classic model lifestyle to people.

Thanks to the concept that a good piece of furniture is like a good friend: someone with whom we like to be and who accompanies us in life, SOYLUSSO plans to be the ideal guide for its clients and accompany them throughout the process of finding their furniture, taking them away all the load and generating a completely personalized and satisfactory service experience. For that reason, the purpose is to understand your customers to a great extent in order to make a match between personality and furniture. In this way, you save your customers time, showing them only what they like and are interested in.

The place where we choose to live is the reflection of our personality and style and becomes the intimate refuge we want to reach at the end of the day, SOYLUSSO seeks to become those details that turn any property into a true Home.

MISSION

SOYLUSSO is inspired to make modern furniture and accessories available to its clients for the kitchen and living room of their properties, offering furniture and cabinets of certified quality, with modern technology and innovative designs, based on the latest international trends and styles.

Designing, manufacturing and marketing our own products with the commitment to improve day by day and always be at the forefront, in order to satisfy the needs of customers with a personalized service and to give them spaces, with details that turn their property into a home.

VISION

SOYLUSSO is a brand with international projection, which will be possible through the effort, dedication, professionalism of our team, quality of our products and personalized service.

Always staying at the forefront of the latest trends to continue innovating the homes of its current and future clients and thus, become the first and the best option for its public interested in furniture and decoration accessories for any type of property.

VALUES

There are many features that make a company characteristic. Everything we do as people or as an organization speaks directly about who we are, what we stand for, what we like. Some of these characteristics are intangible and at SOYLUSSO we have compiled these principles, which allow us to demonstrate who we are as a brand and who represents us.

These values are:

- **RESPONSIBILITY:** as a company we are committed to both our work team and our clients, always keeping our word and the promises we offer.
- **CUSTOMIZED SERVICE AND DESIGNS:** SOYLUSSO not only seeks to offer a personalized service to its clients but also unique designs that can be adapted to the tastes of each person.
- **INNOVATION AND MODERN TECHNOLOGY:** Research and technology are the fundamental axes of our organizational culture, which allow us to fulfill our value proposition, thus offering innovation in each product and unique designs of each piece, which go hand in hand with the latest market trends.
- **EXCELLENCE:** Quality taken to the maximum, that is excellence. And at SOYLUSSO we push ourselves to the max, to always be able to give our best. We focus on every detail, from the origin of the materials, to the production and processing system of each piece. Finding the key to excellence combining comfort, multifunctional use and innovation.
